

CRITIQUE MYSTIQUE

Your title is catchy

You write a good hook

A premise like this

Could adapt to a book.

Still, it cries for more conflict

The dialogue's weak

Forget "just" and "very"

Polish and tweak.

Good visuals, but how

Does the character smell?

Refer to your spell check

Should you capitalize "hell?"

See this paragraph here

It needs a transition

Why not rearrange

Its third sentence position?

Paint images strong

Watch out for mixed tenses

Show, do not tell

Change " 'twases" and "hences."

CRITIQUE MYSTIQUE

Whose viewpoint is this
It's way wordy, dear
Why use passive "was"
Make me laugh, force a tear.

I quite like your metaphors
Word choices, expressive
But do not apply
Punctuation excessive!

I feel tension swell
Applaud talent's shine
But you know darn well
You stole my plot line.
